Reports ICR-00-02 and IPR-00-26

Dear Colleagues,

The "Final Report of the Detailed Characterisation Stage - Compilation of premises and outline of programme for tracer tests in the block scale" has accidentally been produced as

ICR-00-02 and as IPR-00-26. The valid reference should read "International Cooperation Report ICR-00-02"

Do not necessarily throw away IPR-00-26-versions of the report, instead re-label the report with the valid report identifier as stated above!

We apologize for any inconvenience caused by the accidental duplicate distribution of the report under different identities.

Yours sincerely,
